

THE DE-SHREDDER

El banco

Instructions

Good news! We searched Margarita's basement and found a shredded document. Perhaps it's a clue! The even better news is that it's an incredibly old-fashioned shredder that cuts documents into really large, puzzle-shaped pieces. Although we weren't able to put it back together, maybe you can! We scanned the puzzle pieces. Please cut them out and see if you can assemble this shredded document.
